The New Thermal Fused Reveal Door

- Available in Paintable only.
- Like all our Thermal Fused doors, these are sturdy, versatile, and won't warp, telegraph, or delaminate.
- Earn LEED Points: Available certified for Recycled Content.
- Vertical design lines capture the essence of contemporary European styling.
- Available in either 1 or 2 panel configurations.
- Priced to compete with less desirable Stile and Rail MDF construction
- Just like standard Thermal Fused doors, all edges are completely sealed with flexible polymer edgebanding
- Sizes: Max. dimensions = 3'6" x 7'0"
Min. width = 1'6"
- Perfect for hotels, condos, dormitories, and many other applications.
